

Q&A – Grounds Keeping

The questions have been consolidated as much as possible.

SCOPE OF WORK

Question: The RFP states that the contractor is to keep the flower beds weed-free, does this include these courtyard beds as well? If so, should bidders include the initial cleanup and restoration of those areas as part of the base bid, or is the expectation that the beds will be maintained only after they have been brought to an acceptable condition?

Answer: Please provide a quote on the initial cleaning of weeds and continued weed maintenance in the flowerbeds only. Also a quote that includes just weeding maintenance in the flower beds.
